4. Name the file anything you want (in this example I am name it "LRB-data")

5. Notice I am placing it on the desktop (make sure you are able to find the files created)

6. Four files are created for you (LRB-data.htm, LRB-data.xml, LRB-data.xsd, and LRB-data.xsl)

7. The only file we want upload is the LRB-data.xml
