

CIFASD4 Meeting

Friday, June 15, 2018

3:30-9 PM Pacific

Manchester Grand Hyatt - Marina Room

1 Market Place, San Diego, CA 92101 (619) 232-1234

Agenda

- Resource Sharing: Tabulate and summarize consortium project interactions. Assess project needs and resource sharing. Assess where additional common elements could be injected into specific projects.
- Data Sharing Language Review: Verification/generation of common consent language. Since we have occasionally run into issues regarding consents and data sharing ability we will formulate a common consent language to propose to the various IRBs. We will also discuss the new NIH data sharing policy: [NOT-AA-18-010](#) Notice of NIAAA Data-Sharing Policy for Human Subjects Grants Research Funded by the NIAAA.
- CIFASD4 Progress Tracking Tables: Continue discussion of how best to monitor quantification of CIFASD4 deliverables in a clear, concise manner.
- Cross-Center Interaction Discussion: Brainstorm potential CIFASD consortium interactions with other centers (NMARC, DEARC, Kids Brain Health Network).
- Vancouver 2019 CIFASD Session
- Brief Progress Updates: Five minutes per project focused on year one data collection and deliverables (abstracts, publication ideas). Please do not reiterate what you planned on doing, but instead tell us what you accomplished.

U24: Admin. Core, Ed Riley

U24: Dysmorphology, Ken Jones

U01: Ukraine, Tina Chambers

U01: Adults, Claire Coles

U01: Human Genetics, Tatiana Foroud

U01: 3D and 2D Images, Peter Hammond and Mike Suttie

U01: Neurobehavior, Sarah Mattson

U01: Mouse and Fish Genetics, Scott Parnell and Johann Eberhart

U01: Mobile Intervention, Christie Petrenko and Cristiano Tapparelo

U01: Immune, Joanne Weinberg

U01: Neuroimaging, Jeff Wozniak

UH2: Microbiome, Thomas Blanchard and Sandra Mooney

UH2: Biomarkers, Kazue Hashimoto-Torii and Masaaki Torii
