

CIFASD4 Closed Meeting

Friday, March 8, 2019 from 3:45 PM - 7:45 PM Pacific in the Oak Room

The Westin Bayshore, 1601 Bayshore Drive, Vancouver, BC V6G 2V4 Canada

Agenda (15 minutes per item, with the exception of the 5-minute project progress updates)

- **NIAAA's Role in the Organization of CIFASD:** Bill Dunty
- **Brief Progress Updates:** Five-minute presentations per project focusing on year two data collection and deliverables (abstracts, publication ideas). Please do not reiterate what you planned on doing or your specific aims; instead, present: (1) What you accomplished since your WebEx presentation this winter and any exciting new findings. *If you are also presenting in the CIFASD plenary on Friday, please highlight one or two of your recent findings, even if unpublished.* (2) What are your plans and research directions for the next year and what assistance can the consortium provide to help achieve these goals? (3) What research impediments might you be facing and what are some solutions to overcome these challenges? (4) Finally, based on the progress and findings of your project to date, what new opportunities would you like to explore (research directions, collaborations)?

CIFASD4 Projects

U24: Administrative Core, Ed Riley

U24: Dysmorphology Core, Ken Jones

+ Telemedicine: Miguel del Campo and Ken Jones

U01: Ukraine, Tina Chambers and Rajesh Miranda

+ Wireless Wearable Sensors: Todd Coleman (UCSD guest) and Julie Kable

U01: Adults, Claire Coles

U01: Human Genetics, Tatiana Froud

U01: 3D and 2D Images, Mike Suttie and (Alison Noble)

U01: Neurobehavior, Sarah Mattson

U01: Mouse and Fish Genetics, Scott Parnell and Johann Eberhart

U01: Mobile Intervention, Christie Petrenko and Cristiano Tapparello

U01: Immune Dysregulation, Joanne Weinberg

U01: Neuroimaging, Jeff Wozniak

UH2: Microbiome, Sandra Mooney and (Thomas Blanchard)

UH2: Biomarkers, Kazue Hashimoto-Torii and Masaaki Torii

(Unable to attend the Vancouver meeting)

- **CIFASD Apps and eHealth:** Ganz Chockalingam
- **DiG FASD Web Portal and CIFASD Projects:** Discussion of how individual projects are interfacing with the web portal. For example, when a subject is recruited into a project, does that subject also get asked to enroll in the web portal? What protocol is being followed and are adjustments needed?
- **Central Repository:** The IU team will provide updates on (1) CIFASD4 data dictionaries and data deposits and (2) the availability of data from previous phases and any issues (e.g., consents).
- **Data Access Committee:** Nominations for a new chair of the Data Access Committee are needed as well as a status update on any outstanding external data use access requests.
- **Publications Policy Committee:** Discussion of the current protocol, ease of use, effectiveness and suggestions for improvements or modifications of the publications policy.
- **Affiliated Scientists:** Discussion on the incorporation and role of CIFASD-affiliated scientists.
- **Comments from the AdminC, SAB and NIAAA.**
